RATES OF POSTAGE AND POSTAL REGULATIONS APPLYING TO MAIL MATTER WITHIN THE UNITED STATES.

(For Rates to Canada and Mexico, see "Foreign Countries" 2d page from this.)

Mail matter must be addressed to Post Offices only and not to villages or railroad stations not designated as a Post Office. It frequently happens, however, that the same locality bears two distinct names, for instance: Lake George, N. Y.; the railroad station name is "Caldwell," the Post Office name is "Lake George." Mail intended for this place should be addressed to Lake George. Mail for places other than Post Offices will be forwarded to the nearest Post Office if properly marked. Martha's Vineyard, Mass., is not a Post Office, but if marked "Martha's Vineyard, Mass., via Cottage City P. O.," it will be sent to Cottage City Post Office for delivery.

First Class Mail Matter.

Mailable matter of the first class includes letters, postal cards, and all matter wholly or partly in writing, except as herein-after provided.

On mailable matter of the first class (except postal cards, but including New York City letters), the rate of postage is TWO CENTS FOR EACH OUNCE OR FRACTION THEREOF; matter produced by type-writer is included in the first class.

POSTAL CARDS.—The Postage of one cent each is paid by the stamp impressed on these cards, and no further payment is required. No cards are "postal cards" except such as are issued by the Post Office Department.

In using postal cards, nothing should be written or printed on the side to be used for the address except what is necessary to secure their delivery. It is not permitted to paste, gum, or attach anything to them, except a label bearing the address of destination. They are nonmailable as postal cards when these conditions are disregarded. Spoiled postal cards cannot be exchanged.

First class rate is charged on all matter not admitting of examination by postal clerks without injury to envelope or wrapper. Letters exceeding one ounce in weight, and bearing but a single postage, will be forwarded to destination and the additional postage collected thereat. If entirely unpaid, or if exceeding one ounce and having less than a single postage, they will be returned to the sender if address be known, or the addressee will be notified of the deficiency in postage.

Letters delivered at wrong address may be re-directed from the place where first delivered to the proper address, and when dropped in the Mail Boxes they will be forwarded without extra postage. When a change of address either in residence or office occurs, a notice to that effect should be sent to the postmaster by correspondents.

Second Class Mail Matter.

This class embraces newspapers, magazines, and other periodicals issued at stated intervals not exceeding three months, dated and numbered, having a list of legitimate subscribers, and not designed primarily for advertising purposes, nor for circulation free, or at nominal subscription rates. When sent by the publishers or news agents, the rate of postage is ONE CENT PER POUND, payable in currency; and when sent by other persons, ONE CENT FOR EACH FOUR OUNCES, payable by postage stamps.

Third Class Mail Matter.

This class includes printed books, pamphlets, cards, circulars, handbills, engravings, lithographs, photographs, proof-sheets and manuscript accompanying the same, transient newspapers and periodicals (except those belonging in the second class), and all matter of the same general character. Circulars produced by hektograph or similar process, or by electric pen, belong in the third class.

Upon matter of this class, or on its wrapper, the sender may write his own name preceded by the word "from"; may make marks (other than by written or printed words) to call attention to any word or passage in the text, and may correct any typographical errors. There may also be placed upon the blank leaves or cover of any book or other matter of this class a simple manuscript dedication or inscription not in the nature of personal correspondence. There may also be placed upon the envelope, wrapper, tag or label of matter of this class any printing that is not in its character unmailable as third class matter, provided there be kept sufficient space for a legible superscription and the necessary postage stamps.

THE RATE OF POSTAGE ON MAIL MATTER OF THE THIRD CLASS IS ONE CENT FOR EACH TWO OUNCES OR FRACTION THEREOF. The limit of weight for mail matter of the third class is four pounds, except in the case of single books exceeding that weight.

Matter of this class must be so wrapped or enveloped that the contents may be readily examined without destroying the wrapper.

Fourth Class Mail Matter.

Fourth class matter includes all matter not embraced in the first, second, or third class, which is not in its form or nature liable to destroy, deface, or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service.

All matter of the fourth class is subject to postage at the rate of ONE CENT AN OUNCE OR FRACTION THEREOF.—~~28~~ Except Seeds, Cuttings, Bulbs, Roots, Clions and Plants, the postage on which is ONE CENT FOR EACH TWO OUNCES OR FRACTION THEREOF.

Upon any package of matter of the fourth class the sender may write or print his name and address, preceded by the word "from"; also any marks, numbers, names, or letters for purpose of description, and may also print upon the same anything that is not unmailable as printed matter, and that is not in the nature of personal correspondence, provided there be left sufficient space for a legible superscription and the necessary postage stamps.

Continued on next page.

POSTAL INFORMATION—Continued.

All packages of matter of the fourth class must be so wrapped or enveloped that their contents may be readily and thoroughly examined, without destroying the wrappers, and may weigh not exceeding four pounds.

Articles which, from their form or nature, might, unless properly secured, destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, must, to be transmitted in the mails, be placed in a bag, box or removable envelope or wrapping, made of paper, cloth or parchment, and such bag, box, envelope or wrapping must again be placed in a box or tube made of metal or some hard wood, with sliding clasp or screw-lid. In case of such articles liable to break, the inside box, bag, envelope or wrapping must be surrounded by sawdust, cotton or other elastic substance.

Poisons, explosives, perishable fruits and vegetables, articles exhaling a bad odor, and ardent, vinous, spirituous or malt liquors, are UNMAILABLE. (For information as to conditions on which other liquids are admitted, see below.)

Liquids, Etc., in the Mails.

The following Regulations of the Post Office Department relate to articles absolutely excluded from the mails, and to the manner in which liquids and other articles liable, unless properly protected, to injure other mail matter, must be packed before they can be admitted to the mails.

Liquids, except as hereinafter provided, poisons, explosive or inflammable articles, live or dead (and not stuffed) animals, insects or reptiles (except as prescribed in the next section), fruits or vegetable matter liable to decomposition, comb honey, guano, or any article exhaling a bad odor must not, under any circumstances, be admitted to the mails; but liquids, not ardent, vinous, spirituous or malt, and not liable to explosion or spontaneous combustion or ignition by shock or jar (and not inflammable, such as kerosene oil, naphtha, benzine, turpentine and of like character), soft soap, pastes or confections, ointments, salves, and articles of similar consistency, may be admitted to the mails for transmission, within the United States and territories, when enclosed in packages in conformity with the conditions prescribed in the next section. The provisions of these regulations do not apply to packages or parcels addressed to foreign countries, now prohibited from transmission by the Acts of the Universal Postal Union, or any postal convention or arrangement with any foreign postal administration.

Articles of the fourth class, not absolutely excluded from the mails, but which, from their form or nature, might, unless properly secured, destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, may be transmitted in the mails when they conform to the following conditions:

1st. When not liquid, or liquefiable, they must be placed in a bag, box or removable envelope or wrapping, made of paper, cloth or parchment.

2d. Such bag, box, envelope or wrapping must again be placed in a box or tube made of metal or some hard wood, with sliding clasp or screw-lid.

3d. In cases or articles liable to break, the inside box, bag, envelope or wrapping must be surrounded by sawdust, cotton or other elastic substance.

4th. Admissible liquids and oils (not exceeding 4 ounces liquid measure), pastes, salves or articles easily liquefiable, must conform to the following conditions: When in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags and resist rough handling; and there must be provided between the bottle and its wooden base, a cushion of cork-crums, cotton, felt, asbestos, or some other absorbent, sufficient to protect the glass from shock in handling; the block or tube to be closed by a tightly fitting screw-lid of wood or metal, with a rubber or other pad so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a screw-lid with a rubber or cork cushion inside in order to make the same water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end) and not less in thickness and strength than above prescribed. Manufacturers or dealers, intending to transmit articles or samples in considerable quantities should submit a sample package, showing their mode of packing, to the postmaster at the mailing office, who will see that the conditions of this section are carefully observed.

5th. In case of sharp pointed instruments, the points must be capped or encased so that they may not by any means be liable to cut through their enclosure; and where they have blades, such blades must be bound with wire so that they shall remain firmly attached to each other, and within their handles or sockets. Needles must be enclosed in metal or wooden cases so that they cannot by any means prick through or pass out of their enclosures.

6th. Seeds, or other articles not prohibited, which are liable, from their form or nature to loss or damage, unless specially protected, may be put up in sealed envelopes, if such envelopes are made of material sufficiently transparent to show the contents clearly without opening.

7th. Lark powders, pepper, snuff or other powders not explosive, or any pulverized dry substances, not poisonous (excepting flour), may be sent in the mails when enclosed in the manner prescribed herein for liquids, or when enclosed in metal, wooden or papier-mache cases in such secure manner as to render the escape of any particles of dust from the package by ordinary handling impossible, and of such strength as to bear the weight and handling of the mails without breaking; the method of packing to be subject to the approval of the General Superintendent of Railway Mail Service.

8th. Queen bees and their attendant bees, and dried insects, may be sent in the mails when properly put up so as not to injure the persons of those handling the mails, nor soil the mail bags or their contents.

9th. Hard candies, or confectionery, yeast cakes, soap in hard cakes, when wrapped in strong paper boxes or heavy paper wrappers, adequate to prevent all injury to other mail matter in the same mail bag, are admissible in the domestic mails.

10th. Pistols or revolvers, in detached parts, may be sent in the mails; but the mailing postmaster will carefully examine such packages and will receive them only when sure they are harmless.

11th. No specific mode of packing is prescribed for samples of flour; but they should be put up in such a manner as to certainly avoid risk of the package breaking or cracking, or the flour being scattered in the mails; and if this be not done, the sample should be excluded.

POSTAGE RATES TO FOREIGN COUNTRIES.

To the countries and colonies (EXCEPT CANADA AND MEXICO) which comprise the Universal Postal Union, the rates of postage are as follows:—

Postal cards each	2 cents.
Newspapers and other printed matter, per 2 ounces	1 cent.
Commercial papers.	5 cents.

Packets not in excess of 4 ounces	10 cents.
Packets in excess of 4 ounces, for each 2 ounces, or fraction thereof	
Registration fee on letters or other articles	
Ordinary letters will be forwarded, whether any postage is prepaid on them or not, double rates being collected on delivery if unpaid or short paid.	

All correspondence other than letters must be prepaid at least partially.

The maximum weight of printed matter is fixed at 4 lb. 6 oz.; and the maximum size to 15 inches in any one direction, except that rolls of printed matter which could be inclosed in a cube of 45 centimeters may be forwarded by mail even if they exceed 18 inches in length. Commercial papers must be forwarded under band or in an open envelope. The maximum weight of commercial papers is fixed at 4 lb. 6 oz.; and the maximum size at 15 inches. Samples of merchandise must conform to the following conditions: (1st) they must be placed in bags, boxes, or removable envelopes in such a manner as to admit of easy inspection; (2d) they must not have any salable value, nor bear any manuscript other than the name or profession of the sender, the address of the addressee, a manufacturer's or trade mark, numbers, prices and the weight or size of the quantity to be disposed of, and words which are necessary to precisely indicate the origin and nature of the merchandise; (3d) they must not exceed in weight 8 3/4 ounces, or the following dimensions: 8 inches in length, 4 inches in breadth, and 2 inches in depth (see exceptions below). Packets of printed matter, commercial papers, and samples must not contain any letter or manuscript note having the character of an actual and personal correspondence, and must be made up in such manner as to admit of being easily examined. "Commercial Papers" include instruments or documents wholly or partly in writing, such as deeds, invoices, insurance papers, etc., not having the character of personal correspondence, and manuscripts of works for publication. It is permitted to inclose in the same packet, samples of merchandise, printed matter, and commercial papers, provided the packet does not exceed 4 lbs. 6 oz. in weight and is prepaid at least 5 cents.

Exceptions.—By special agreement between the United States and France, Great Britain, Belgium, Switzerland, and the Argentine Republic, packets of samples of merchandise are admissible in the mails between the two countries, up to 12 ounces in weight, and the following dimensions: 12 inches in length, 8 inches in width, and 4 inches in depth. Packets of books and other printed matter in mails to Germany and Great Britain are limited to 2 feet in length and 1 foot in each other dimension.

POSTAL INFORMATION—Continued.

Samples of liquids, flammable substances, and powders, whether coloring or not (except such as are dangerous, inflammable, explosive, or exhale a bad odor), are admitted to the mails exchanged between the United States and Germany, Argentine Republic, Austria, Hungary, Belgium, Chili, Curacao, Denmark, Dutch Guiana, Egypt, Spain, France, French Colonies, Greece, Hawaii, Hayti, British India, Italy, Japan, Luxembourg, Norway, Netherlands, Dutch East Indies, Peru, Portugal, Roumania, Salvador, Serbia, Siam, Sweden, Switzerland and Turkey, provided said samples conform to the following conditions, viz.: They must be placed in thick glass bottles, hermetically sealed; the bottles must be placed in a wooden box containing sufficient spongy matter to absorb the contents if the bottles should break; the whole to be enclosed in an outside metal case bearing the address; the wooden box and outside case must be closed so that they may be easily opened for examination of the contents; and the whole package must not exceed in weight 8 3/4 ounces, nor in size 8 x 4 x 2 inches, except those addressed to the Argentine Republic, Belgium, France, or Switzerland, which may weigh not to exceed 12 ounces, and measure not to exceed 12 x 8 x 4 inches.

Articles not specifically enumerated in postal conventions or in the United States postal laws and regulations as transmissible in the mails to foreign countries, or which are not homogeneous with those therein enumerated, are not entitled to be sent at the reduced rates of postage fixed for correspondence other than letters, but may be transmitted at letter rates of postage, fully prepaid, provided they are not absolutely excluded from the mails by the provisions of postal conventions, or by the laws and regulations.

Packages Excluded from Mails in Foreign Countries. Packages containing articles of salable value, or dutiable goods, or exceeding the prescribed limit of weight or size, are frequently deposited in Post Offices in Europe and elsewhere addressed to the United States, notwithstanding they are excluded from admission to Postal Union mails at less than letter rates by the terms of the Universal Postal Union convention. When their character is known, or they are not fully prepaid at letter rates, they are not forwarded from the post offices where posted, and this leads to complaint here by the addressees. It should be understood that the non-receipt of such packages is usually to be explained by their detention, for the reasons stated above, at the office of mailing, and inquiry concerning them should be addressed there. When such unmailable packages are deposited in a post office in Germany, they are given in charge of an express company for transportation to the United States outside the mails, and are delivered to New York agents of the express company, and by them to the addressees, with express and customs charges payable thereon.

The following are the Postage Rates to the principal foreign countries which are not in the Universal Postal Union. All correspondence to these countries must be fully prepaid.

Dutiable Articles Received in Foreign Mails.

Customs officers are assigned to duty at the New York Post Office for the seizure of dutiable articles arriving in the mails from foreign countries. All *unsealed* packages containing such articles are seized by them, and when letters, *sealed* packages, or packages the wrappers of which cannot be removed without destroying them, are received in the United States from a foreign country, and there is reason to believe they contain articles liable to custom duties, the customs officers are notified of the receipt of such letters or packages, and their several addresses; and if any letter or package of this character be addressed to a person residing within the delivery of this office, the addressee thereof is notified that such letter or package has been received, and is believed to contain articles liable to customs duties, and that he must appear at the office of the customs examiners in the post office building within a time not exceeding twenty days from the day of said notice, and receive and open said letter or package in their presence.

All books received here from foreign countries addressed for delivery at any point within the United States are, under instructions of the Treasury and Post Office Departments, placed in the custody of customs officers for examination and appraisal, and are forwarded by them by mail, charged with duties (when found to be dutiable) to be collected by the Postmaster at the office of delivery. Books are decided by the Secretary "to include such as are bound in stiff covers, and also such as are usually so bound." Printed matter, in small quantities for personal use, and not for sale as merchandise (embracing magazines, periodicals, etc., in pamphlet form, and newspapers, photographs, lithographs, engravings and music), is free of duty when received by mail. Complaints of supposed overcharges or of any other irregularity in connection with customs duties should be addressed to the Secretary of the Treasury, Washington, D. C., and NOT to the POSTMASTER, who has no authority to review or amend the action of the customs officers. All books, when returned to this office by the customs examiners, are promptly forwarded to their respective destinations. The packages will be found to bear two postmarks—one indicating the date of *original* receipt here, and the other the date on which they were *returned* by the customs officers for mailing.

Special Postage Rates to Canada and Mexico.

Letters (in their usual and ordinary form) two cents per ounce or fraction thereof.

Postal Cards.—One cent each.

Books, and other printed matter—one cent for each two ounces.

Newspapers and Periodicals, regularly issued not less frequently than four times a year and admitted to the mails in the United States as "Second Class Matter"—one cent per pound when mailed by the Publisher or a News Agent and one cent for each four ounces when mailed by others than the Publisher or a News Agent.

Merchandise.—(No merchandise other than *bona fide* trade samples may be sent to Mexico, except by *Parcels Post*). *Bona fide* trade samples to Mexico are rated as follows: *Packets not in excess of 4 ounces, 2 cents. Packets in excess of 4 ounces, for each 2 ounces, or fraction thereof, 1 cent.* To Canada, Merchandise and Samples of Merchandise, and in general all articles not included above—one cent per ounce, or fraction thereof (except Seeds, Cuttings, Bulbs, Roots, Cions and Plants, which are 1 cent per two ounces); but liquids, poisons, explosive or inflammable substances, fatty substances or those which easily liquefy, live or dead (not dried) animals, insects and reptiles, confections, pastes, fruits and vegetables which quickly decompose, and substances which exhale a bad odor—together with other articles which may destroy or damage the mails, or injure persons handling the mails—are absolutely excluded from transmission in the mails to Canada and Mexico.

[Lottery tickets or circulars, publications which violate the copyright laws of Canada or Mexico, and all obscene or immoral articles, are also absolutely excluded.]

Articles other than *Letters in their usual and ordinary form*, must be so wrapped or enclosed as to permit their contents to be easily examined by postmasters or customs officers. *Sealed* packages which, from their form or general appearance *evidently* are not letters, are not mailable to Canada or Mexico, even though prepaid at letter rates.

No package of any kind (except single volumes of printed books, and except packages of second-class matter to Canada) can be transmitted by mail to Canada or Mexico if exceeding four pounds six ounces in weight.

All articles (except letters in their usual and ordinary form) will be inspected by customs officers, on arrival in Canada or Mexico, and if found to be dutiable under the laws of the country of destination, the proper customs duties will be charged and collected before delivery.

Parcels Post.

Parcels Post Conventions have been concluded between the United States and Jamaica, Barbadoes, Bahamas, British Honduras, U. S. of Colombia, Mexico and Hawaiian Kingdom, under the following provisions which apply in the United States to parcels of merchandise (other than samples) and all other articles not prohibited, which are exchanged between the United States and the countries above named:

POSTAL INFORMATION—Continued.

POSTAGE.

For every additional pound or fraction of a pound - - - - - 12 cents.
The postage must, in all cases, be prepaid, and by means of postage stamps which must be affixed by the sender; and no parcel will be accepted for transmission which is not sufficiently prepaid.

(To Mexico and U. S. of Colombia, 2 feet by 4 feet.)

Parcels must be securely and substantially packed, so they can be safely transmitted in the open mail of the country of destination, but must be so wrapped or enclosed as to permit their contents to be easily examined by postmasters and customs officers.

Any articles admitted to the Domestic mails of the United States may be sent in parcels post, except letters or communications of the nature of a correspondence, and except publications which violate the copyright laws of the country of destination; poisons and explosive or inflammable substances; liquids and those which easily liquefy; confections and pastes; live or dead animals, except dead insects and reptiles, when thoroughly dried; fruits and vegetables, and substances which exhale a bad odor; lottery tickets, lottery advertisements or lottery circulars; all obscene or immoral articles; articles which in any way damage or destroy the mails or injure the persons handling them.

Each parcel must bear the words "Parcels Post," in the upper left hand corner, and the name and address of the sender.

A parcel must not be posted in the letter-box, but must be taken into the post office, and presented at the counter to the postmaster or person in charge, between the hours of 9 a. m. and 5 p. m.

The sender will, at the time of mailing the parcel, receive a certificate of mailing from the post office.

All parcels may be liable to customs duties, and the sender of each parcel will therefore be required to make a customs declaration, giving a general description of the parcel, an accurate statement of the contents and value, date of mailing, and the sender's signature and residence, and the place of address. This declaration must be pasted upon or attached to every parcel, upon a special form which will be furnished on application at the post office.

On the delivery of a parcel to the addressee, a charge of five cents must be collected on each single parcel of whatever weight; and if the weight exceed one pound, a charge of one cent for each four ounces of weight, or fraction thereof, will be collected.

DUTIABLE ARTICLES.

Dutiable articles received in the United States in parcels from the above countries, under these conventions, will be rated and charged with the proper amount of customs duty at New York, and these duties will be collected on delivery of the parcel.

CHURCHES.

Prominent Churches bearing names that do not imply their denomination, and churches of the various denominations bearing the same name, we have arranged in alphabetical order in the following list, so as to facilitate the finding of any desired church. We have also inserted the names of prominent clergymen with their church address; this will further assist the inquirer; for example, a person wishing to go to the Fifth Avenue Presbyterian Church may know it only as "Dr. Hall's church"; both appellations are here given. *All other churches will be found under the denominations they represent.*

FOREIGN TELEGRAPH RATES.

 The publisher is indebted to the Western Union Telegraph Co. for the very complete telegraph information contained in this Guide.

ATLANTIC CABLES.

CENTRAL CABLE OFFICE, 16 BROAD STREET, NEW YORK.

Tariff from New York City to Great Britain, Ireland, France and Germany. 25 cents per word.

NOTE.—Messages to places beyond England and France are forwarded by the cheapest route, unless specially directed by any other. When there is more than one route to the same place at the same charge, and messages are not specially directed *via* any particular one, they are forwarded *via* the best one, at the discretion of the telegraph officials.

Senders can ensure their messages being forwarded by any particular route, such as "*via* Siberia," "*via* Santander," "*via* Teheran," etc., by inserting the indication of route in the "Check." The indication is transmitted free of charge.

Messages destined to places beyond the lines of telegraph must contain instructions from the sender as to the name of the place from which they are to be posted. The charge for postage is 37 cents.

Rules for Atlantic Cable Business.

1.—The maximum length of a chargeable word will be fixed at 10 letters. Should a word contain more than 10 letters, every 10, or fraction of 10 letters will be counted as a word.

2.—Code words must be composed of words in the English, French, German, Spanish, Italian, Dutch, Portuguese or Latin languages. Proper names (*i. e.* of persons and places), will not be allowed in the text of Code Messages, except in the manner they are used in ordinary private messages.

3.—Groups of figures or letters will be counted at the rate of three figures or letters to a word, plus one word for any excess.

HACK REGULATIONS AND LEGAL RATES OF FARE.

Distance is computed at 20 blocks to a mile, excepting through such streets that intersect the numeral and letter avenues, for example, 1st Ave. & Ave. A, when 7 blocks constitute a mile.

Sec. 89. The price or rates of fare to be asked or demanded by the owners or drivers of hackney coaches or cabs shall be as follows:

Cabs.

1. For conveying one or more persons any distance, sums not exceeding the following amount: fifty cents for the first mile or part thereof; and each additional half mile or part thereof, twenty-five cents. By distance, for "stops" of over five minutes and not exceeding fifteen minutes, twenty-five cents. For longer stops, the rate will be twenty-five cents for every fifteen minutes or fraction thereof, if more than five minutes. For a brief stop, not exceeding five minutes in a single trip, there will be no charge.

2. For the use of a cab, by the hour, with the privilege of going from place to place and stopping as often and as long as may be required, one dollar for the first hour or part thereof, and for each succeeding half-hour or part thereof, fifty cents.

Coaches.

3. For conveying one or more persons any distance, sums not exceeding the following amounts: one dollar for the first mile or part thereof, and each additional half mile or part thereof, forty cents. By distance for "stops" of over five minutes and not exceeding fifteen minutes, thirty-eight cents. For longer stops the rate will be thirty-eight cents for every fifteen minutes. For a brief stop, not exceeding five minutes in a single trip, there will be no charge.

4. For the use of a coach, by the hour, with privilege of going from place to place and stopping as often and long as may be required, one dollar and fifty cents for the first hour or part thereof, and for each succeeding half-hour or part thereof, seventy-five cents.

5. No cab or coach shall be driven by the time rate at a pace less than five miles an hour.

6. From "line halls," one or two passengers, to any point south of Fifty-ninth street, two dollars; each additional passenger, fifty cents; north of Fifty-ninth street each additional mile shall be charged for at a rate not to exceed fifty cents per mile.

7. Every owner or driver of any hackney coach or cab shall carry on his coach or cab one piece of baggage, not to exceed fifty pounds in weight without extra charge; but for any additional baggage he may carry, he shall be entitled to extra compensation at the rate of twenty-five cents per piece.

8. All disputes, as to prices or distance, shall be settled by the Mayor or such other person as he may designate.

9. In all cases, where the hiring of a hackney coach or a cab is not at the time thereof specified to be by the hour, it shall be deemed to be by the mile; and for any detention exceeding fifteen minutes, when so working by the mile, the owner or driver may demand at the rate of one dollar per hour.

It shall be the duty of the driver of every such hackney coach or cab, at the commencement of his employment, to present the passenger employing him with a printed card or slip, containing, in case of cabs, subdivisions 1 and 2, and in cases of coaches, subdivisions 3 and 4 of section 89 of this article.

THE CONTINENTAL FIRE INSURANCE CO.

has a Cash Capital of

ONE MILLION OF DOLLARS,

Cash Assets of over

FIVE MILLIONS OF DOLLARS,

a Reserve for the security of Insurance in force amounting to over

TWO MILLIONS AND A HALF OF DOLLARS,

and a Net Surplus, above the Capital and all liabilities, of over

TWELVE HUNDRED THOUSAND DOLLARS.

It has paid Losses to date amounting to the large sum of over

TWENTY-THREE MILLIONS OF DOLLARS.

It conducts its business under the provisions of the Safety Fund Law of the State of New York, and has in the two Safety Funds

ONE MILLION OF DOLLARS.

Its gain in Net Surplus for the year just closed (1888) was the largest of any American company.

In the great Chicago fire, which occurred in the year 1871, it paid, in cash, losses amounting to nearly Two Millions of Dollars, and so strong were its reserves that *it did this without impairing its Capital*. Thirteen months later, it paid in consequence of the large fire in the city of Boston nearly Three-Quarters of a Million of Dollars.

Such facts as these should recommend the Company to all having property to insure. Why should you select a weak Company when you can just as well select a strong one, which has been tried by passing through conflagrations in consequence of which one hundred Companies failed? The best is the cheapest. Especially is it incumbent upon trustees, guardians, executors, agents and others acting in a fiduciary capacity to select for those whose interests are entrusted to their charge, unquestioned indemnity.

If you desire insurance on property of any kind, and will send us a postal card we will save you all trouble by having our representative call on you. An examination of the list of Directors of this Company should be satisfactory evidence to any one, that the connection with it by men of such standing in the community is further evidence of its reliability.
